The Congress

This Congress is one of the largest Ayurveda congresses in Europe, with participation from leading experts from India, Europe and USA.

During our first International Ayurveda Congress, held in The Netherlands on 11th and 12th April 2015, five hundred delegates, including eighty Ayurvedic experts from India, participated in the Congress. Following on the success of the 2015 event, we are again expecting an international gathering of over 500 experts in the field.

This conference is the joint effort of three organizations: the International Maharishi AyurVeda Foundation, from The Netherlands; the All India Ayurvedic Congress, New Delhi; and the International Academy of Ayurved, Pune.

This Congress has its foundation in Maharishi Mahesh Yogi’s World Plan for Perfect Health through the principles and practice of Ayurvedic Science. This conference also took inspiration from Prime Minister Shri Narendra Modi’s encouragement of Ayurvedic experts and academicians in India and worldwide to spread the highest quality of Ayurvedic knowledge, practice and products worldwide. Prime Minister Modi’s continued support for strengthening and including Ayurveda in the ties of India with other countries has been appreciated by all.

Among the goals of these Congresses is to bring to light Ayurveda as a prevention-oriented perfect health care system for the world, a system that is authentic and reliable. This will strengthen the reputation of India in Europe and the world through the implementation of traditional time-tested Vedic knowledge, products and practice.

Since Ayurveda is prevention-oriented, as well as holistic and curative, it is capable of leading the world towards creating an increasingly disease-free society. It has the potential to make a huge contribution to the health care systems in Europe and the world. Since Ayurveda is cost effective and easy to implement, it is capable of bringing about self-sufficiency in health care in every nation.
